Groff

Kostarelopoulos Ioannis

1. Command Line Exercise for HCI - Groff

HCI is a subject of the IT Department of the Ionian University

I am using groff for the 9th assignment of HCI. As such I am typing this whole thing as an example of usage for groff.

1.1. Here is a second level heading

HCI is a subject of the IT Department of the Ionian University

The word **bold** will be bold and this is *italics* there is also this format and also this

this resets

2. Lists

- Vim
- Emacs
- Nano

This was a list

3. This next piece of text will be boxed

Doug Engelbart's vision of augmenting human intellect

Ken Thompson Created the video game Called Space Travel

4. This segment is for creating tables

allbox ; c s s s c c c c. This is a Table for HCI Assignment hci   Arch vim groff git   bash shell gnu
